## TIPS

- The site address is **9801 Frontier Avenue SE, Snoqualmie, WA**. Most GPS units do not correctly find this address. There are no residential streets between Snoqualmie Parkway and the new hospital. If your unit is leading you onto a residential street, you're in the wrong place.
- **34220 SE 99<sup>th</sup> Street, Snoqualmie, WA** is a made up address, but most GPS units will correctly direct you to the new hospital by entering this address.
- SE 99<sup>th</sup> Street is the closest street to I-90, and is parallel to and north of I-90. Be aware that the one-way exit to Snoqualmie Parkway from the state truck scale appears to be a street on some maps.
- SE 99<sup>th</sup> Street is aligned with the driveway to the East Campus on the opposite side of the parkway.
